1. Nature of Operations and Going Concern

Noble Mineral Exploration Inc., ("the Company" or "Noble") is in the mineral exploration and evaluation business. Noble has a wholly-owned US subsidiary, Hawk Uranium USA, Inc. ("Hawk USA") which is inactive.

The Company is incorporated under the laws of the Province of Ontario, Canada, and its head office is located at 120 Adelaide Street West, Suite 2500, Toronto, Ontario, M5H 1T1.

The business of exploring for minerals involves a high degree of risk and there can be no assurance that planned exploration programs will result in profitable operations. The recoverability of amounts shown for exploration and evaluation assets is dependant upon completion of the acquisition of the property interests, the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying claims, the ability of the Company to obtain necessary financing to complete the development and future profitable production or, alternatively, upon disposition of such property at a profit. Changes in future conditions could require material write-downs of the carrying values of exploration and evaluation assets.

The Company's major mineral properties are: (i) Project 81 and (ii) Holdsworth Property. Unless the Company acquires or develops additional material properties, the Company will be mainly dependent upon these properties. If no additional major mineral properties are acquired by the Company, any adverse development affecting these properties would have a material adverse effect on the Company's financial condition and results of its operations.

Although the Company has taken steps to verify title to the property on which it is conducting exploration and it has acquired an interest, in accordance with industry standards for the current stage of exploration of such property, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, aboriginal claims, and noncompliance with regulatory requirements.

As at February 28, 2014, the Company had working capital deficiency of $744,019 (August 31, 2014 - working capital deficiency of $1,392,255) and an accumulated deficit of $22,525,629 (August 31, 2014 - $20,743,589). The Company is actively seeking additional sources of liquidity. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but not limited to, twelve months from the end of the reporting period. The Company's ability to continue operations and fund its exploration and evaluation assets expenditures is dependent on management's ability to secure additional financing. Management is actively pursuing such additional sources of financing, and while it has been successful in doing so in the past, there can be no assurance it will be able to do so in the future. Management is aware, in making its assessment, of material uncertainties related to events or conditions that may cast significant doubt upon the entity's ability to continue as a going concern. Accordingly, they do not give effect to adjustments that would be necessary should the Company be unable to continue as a going concern and therefore to realize its assets and liquidate its liabilities and commitments in other than the normal course of business and at amounts different from those in the accompanying consolidated financial statements. These adjustments could be material.

2. Accounting Policies

Statement of Compliance

These unaudited condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34 - Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

The policies applied in these unaudited condensed interim consolidated financial statements are based on IFRS issued and outstanding as of April 27, 2015 the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these unaudited condensed interim consolidated financial statements as compared with the most recent annual consolidated financial statements as at and for the year ended August 31, 2014. Any subsequent changes to IFRS that give effect to the Company's annual consolidated financial statements for the year ending August 31, 2015 could result in restatement of these unaudited condensed interim consolidated financial statements.

3. New Accounting Standards Adopted

(i) IFRS 8 - Operating Segments ("IFRS 8") was amended to require an entity to disclose the judgments made by management in aggregating segments. IFRS 8 was also amended to clarify that an entity needs to present a reconciliation between the total reporting segment's assets to the entities' total assets if this information is usually provided to the chief operating decision maker. On September 1, 2014, the Company adopted this pronouncement, with no material impact upon the Company's unaudited condensed interim consolidated financial statements.

(ii) IFRS 13 – Fair Value Measurement ("IFRS 13") was amended to clarify that the exception which allows fair value measurements of a group of financial assets and liabilities on a net basis applies to all contracts within the scope of IAS 39 or IFRS 9, regardless of whether they meet the definitions of financial assets or liabilities as defined in IAS 32. On September 1, 2014, the Company adopted this pronouncement, with no material impact upon the Company's unaudited condensed interim consolidated financial statements.

(iii) IAS 24 - Related Party Disclosures. The amendments to IAS 24, issued in December 2013, clarify that a management entity, or any member of a group of which it is a part, that provides key management services to a reporting entity, or its parent, is a related party of the reporting entity. The amendments also require an entity to disclose amounts incurred for key management personnel services provided by a separate management entity. This replaces the more detailed disclosure by category required for other key management personnel compensation. On September 1, 2014, the Company adopted this pronouncement, with no material impact upon the Company's unaudited condensed interim consolidated financial statements.

(iv) IAS 32 - Financial Instruments: Presentation ("IAS 32") was amended by the IASB in December 2011 to clarify certain aspects of the requirements on offsetting. The amendments focus on the criterion that an entity currently has a legally enforceable right to set off the recognized amounts and the criterion that an entity intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously. On September 1, 2014, the Company adopted this pronouncement, with no material impact upon the Company's unaudited condensed interim consolidated financial statements.

3. New Accounting Standards Adopted (Continued)

(v) In May 2013, the IASB issued amendments to IAS 36 Impairment of Assets ("IAS 36"). The amendments to IAS 36, which are to be applied retrospectively, are effective beginning with the Company's interim financial statements for the period commencing September 1, 2014. The amendments to IAS 36 relate to disclosure changes, specifically: (i) removing the requirement to disclose the recoverable value of a CGU when the CGU contains goodwill or long lived intangible assets not currently subject to impairment, (ii) adding a requirement to disclose the recoverable amount of an asset or CGU when an impairment loss is recognized or reversed, and (iii) adding a requirement to disclose how fair value less disposal costs are measured when an impairment loss is recognized or reversed. On September 1, 2014, the Company adopted these amendments, with no material impact upon the Company's unaudited condensed interim consolidated financial statements.

(vi) IAS 39 Financial Instruments: Recognition and Measurement ("IAS 39"). In June 2013, the IASB issued a narrow scope amendment to IAS 39. Under the amendment, there would be no need to discontinue hedge accounting if a hedging derivative was notated, provided that certain criteria are met. On September 1, 2014, the Company adopted this pronouncement, with no material impact upon the Company's unaudited condensed interim consolidated financial statements.

(vii) IFRIC 21 Levies ("IFRIC 21") The IASB issued IFRIC 21, an interpretation of IAS 37 – Provisions, Contingent Liabilities and Contingent Assets ("IAS 37"), on the accounting for levies imposed by governments. IAS 37 sets out criteria for the recognition of a liability, one of which is the requirement for the entity to have a present obligation as a result of a past event ("Obligating Event"). IFRIC 21 clarifies that the Obligating Event that gives rise to a liability to pay a levy is the activity described in the relevant legislation that triggers the payment of the levy. On September 1, 2014, the Company adopted this pronouncement, with no material impact upon the Company's unaudited condensed interim consolidated financial statements.

4. Future Accounting Changes

The following standards have not yet been adopted and are being evaluated to determine their impact on the Company.

(i) IFRS 9 – Financial Instruments ("IFRS 9") was issued by the IASB and will replace IAS 39 - Financial Instruments: Recognition and Measurement ("IAS 39"). IFRS 9 uses a single approach to determine whether a financial asset is measured at amortized cost or fair value, replacing the multiple rules in IAS 39. The approach in IFRS 9 is based on how an entity manages its financial instruments in the context of its business model and the contractual cash flow characteristics of the financial assets. Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9. The new standard also requires an expected loss impairment method to be used, replacing the incurred loss impairment methods in IAS 39. IFRS 9 will be effective as at January 1, 2018. Earlier adoption is permitted.

(ii) IAS 38, Intangible Assets and IAS 16, Property, Plant and Equipment were amended in May 2014 to introduce a rebuttable presumption that the use of revenue-based amortization methods for intangible assets is inappropriate. The amendment is effective for annual periods beginning on or after January 1, 2016. Earlier adoption permitted.

(Expressed in Canadian Dollars)

5. Sale of Block B Assets and Carbon Royalty of Block A

On September 24, 2014, the Company repaid loans from Kreative Ventures Limited, with a total principal amount of $1,493,258 transferring all of Block B of the Company's Project 81 to that creditor to settle a principal amount of $1,250,000 of that creditor's loan and the Carbon Royalty to settle the remaining principal loan amount of $243,258. Kreative Ventures Limited has also agreed that the Company will have a right to repurchase Block B of the Company's Project 81 for a period of 12 months at a price of $1,250,000 plus a 1% per month administrative fee, and the right to repurchase the Carbon Royalty for a period of 12 months at a price of $243,258 plus a 1% per month administrative fee.

The proceeds received on the sale have been allocated between land, timber rights, mineral rights and carbon royalty, resulting in a gain on sale of land of $489,344, a gain on the sale of timber rights of $230,581, a gain on sale of mineral rights of $171,849, and a gain on sale of the carbon royalty of $243,258 as follows:

9. Loan Payable

On October 22, 2012, the Company closed a loan from a syndicate of private lenders and provided financing of $1,500,000. The Loan matures on October 22, 2016 and was secured by a mortgage on the property comprising the Company's Project 81, as well as by a charge on all other assets of the Company. Interest accrues on the Loan at 12% per annum, with interest to be paid quarterly. As consideration to the parties who advanced the loan, the Company has issued a total of 6,000,000 common shares and ascribed a fair value of $300,000, which has been recorded as equity and netted against the loan payable. The balance in the loan payable will be accreted to its face value at maturity. No commission was paid on this transaction. For the six months ended February 28, 2015, $19,578 of interest was incurred on this loan. Of the interest incurred, as at February 28, 2015 $10,652 had been paid. The fair value of the loan payable is $146,298 as at February 28, 2015.

Of the $1,500,000 raised, $100,000 was raised from a syndicate of lenders including the Company's Chief Executive Officer ("CEO").

On September 24, 2014, the Company repaid $1,350,000 of this loan through the transfer of certain assets of the Company (see Note 5).

As of February 28, 2015, the Company had defaulted on certain interest payments required under the terms of this loan payable. The Company has not been advised of any action having been undertaken by the lender.

10. Notes Payable

(i) On December 21, 2012, the Company closed a loan of $521,000 (the “Note”) from a syndicate of private lenders, (including related parties), (the “December Lenders”). The Note matures on December 21, 2016 and was secured by a mortgage on the property comprising the Company's Project 81, as well as by a charge on all other assets of the Company. Pursuant to an intercreditor agreement, the December Lenders’ security interest ranked equally with that of the lenders from the refinancing that closed on October 22, 2012. Interest accrues on the Note at 12% per annum, with interest to be paid quarterly. As consideration to the parties advancing the Note, the Company issued a total of 2,084,000 common shares (issued at a price of $0.05 per share, with an ascribed aggregate value of $104,200). The TSX Venture Exchange accepted the terms of the transaction on December 27, 2012. No commission was paid on this transaction. For the six months ended February 28, 2015, $4,225 in interest was incurred on this Note. Of the interest incurred, as at February 28, 2015, $nil had been paid.

During the month of April 2014, the Company repaid $450,000 of this Note.

As of February 28, 2015, the Company had defaulted on certain interest payments required under the terms of this loan payable. The Company has not been advised of any action having been undertaken by the lender.

(ii) On August 23, 2013, the Company closed a secured debt financing, raising a total of $169,453. The secured debt financing provided to the Company at this closing was to mature on July 11, 2017 and was secured by a mortgage on the property comprising the Company's Project 81, as well as by a charge on all other assets of the Company. Pursuant to an intercreditor agreement, the security granted to the lenders in this closing ranked equally to the secured loans made to the Company under loan agreements dated October 22, 2012 and December 21, 2012. Interest accrued on this secured loan at 12% per annum, with interest to be paid quarterly. As consideration to the lenders who advanced funds to the Company in this closing, the Company has issued a total of 677,813 common shares (issued at a price of $0.05 per share, with an ascribed aggregate value of $33,891). These shares were subject to a four-month hold period expiring on December 24, 2013. For the six months ended February 28, 2015, $341 in interest was incurred on this loan. Of the interest incurred, as at February 28, 2015, $341 had been paid.

20. Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy establishes three levels to classify the inputs to valuation techniques used to measure fair value. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs are quoted prices in markets that are not active, quoted prices for similar assets or liabilities in active markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data or other means. Level 3 inputs are unobservable (supported by little or no market activity). The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs.

(a) Assets and liabilities measured at fair value on a recurring basis:

As at February 28, 2015	Quoted prices in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Aggregate fair value

The Company does not offset financial assets with financial liabilities.

21. Capital Management

The Company manages its capital with the following objectives:

- to ensure sufficient financial flexibility to achieve the ongoing business objectives including funding of future growth opportunities, and pursuit of accretive acquisitions; and
- to maximize shareholder return through enhancing the share value.

The Company monitors its capital structure and makes adjustments according to market conditions in an effort to meet its objectives given the current outlook of the business and industry in general. The Company may manage its capital structure by issuing new shares, repurchasing outstanding shares, adjusting capital spending, or disposing of assets. The capital structure is reviewed by management and the Board of Directors on an ongoing basis.

The Company considers its capital to be equity, comprising share capital, contributed surplus, share-based and expired warrants reserve, warrants, other comprehensive loss, and deficit, which at February 28, 2015 totaled $647,165 (August 31, 2014 - $2,430,334). The Company manages capital through its financial and operational forecasting processes. The Company reviews its working capital and forecasts its future cash flows based on operating expenditures, and other investing and financing activities. The forecast is updated based on activities related to its mineral properties. Information is provided to the Board of Directors of the Company. The Company's capital management objectives, policies and processes have remained unchanged during the six months ended February 28, 2015. The Company is not subject to any capital requirements imposed by a lending institution or regulatory body, other than Policy 2.5 of the TSXV Venture Exchange (“TSXV”) which requires adequate working capital or financial resources of the greater of (i) $50,000 and (ii) an amount required in order to maintain operations and cover general and administrative expenses for a period of 6 months. As of February 28, 2015, the Company is not compliant with Policy 2.5. The impact of this violation is not known and is ultimately dependant upon the discretion of the TSX-V.
